

GREEN CARD STEM VOICES: STORIES FROM MINNESOTA IMMIGRANTS WORKING IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH

— Traveling Exhibit —

Who We Are

Green Card Voices is a Minneapolis-based, nationally growing social enterprise that works to record and share first person narratives of America's immigrants to facilitate a better understanding between immigrants and their communities.

Working through local partnerships with high schools, universities, and community organizations since 2013, Green Card Voices works to build a platform that amplifies the voices of immigrants. Their programming includes published books, traveling exhibits, and an online video library that currently features stories of over 450 immigrants and refugees coming from 130 different countries.

What We Do

Sharing immigrant stories is the essence of Green Card Voices. While our stories are always available at our digital library at greencardvoices.org, the most effective way to engage students and the community is through our traveling exhibit, which can be used in tandem with our books and curriculum.

About the Exhibit

This exhibit was inspired by the book *Green Card STEM Voices: Stories from Minnesota Immigrants Working in Science, Technology, Engineering, and Math*. Within the exhibit, you will hear these STEM professionals share reflections on their immigration journey, describe challenges from their STEM careers, and illustrate the many ways they have and continue to contribute to their new homes.

About the Book

Green Card STEM Voices: Stories of Minnesota Immigrants Working in Science, Technology, Engineering, and Math is an insightful collection of personal essays written by 20 immigrants and refugees working across 17 diverse STEM fields and spanning 17 countries. You will read about the forces that motivated these individuals to leave their homelands and about the factors that drew them into a STEM career. They are stories about the thrill of new scientific breakthroughs and about the frustrations, failures, and false starts along the way. This book represents Minnesota's vibrant STEM landscape, and the crucial and inspiring work of immigrants across the US.

To purchase a book, visit www.greencardvoices.org/store (50% discount for classroom purchases of 30 or more).
